3. Brief description of Debtor's business:

The Company is a mid-volume production stage company that develops large format lithium-ion rechargeable batteries to be used as a new power source for emerging applications in the automotive, stationary power, and national security markets. Over the past several years, the Company has refocused its unique extrusion-based manufacturing process, cell technology, large battery assembly expertise and market activities to concentrate on large-format, high rate battery applications. The Company's commercialization efforts are focused on applying its lithium-ion rechargeable batteries in the transportation, national security and stationary power markets.

4. List the name of any person who directly or indirectly owns, controls, or holds, with power to vote, 5% or more of the voting securities of debtor:
